Online Course Enrollment System – Feature Set II –

Algorithm (Step-by-Step)

Start

1

Start the Online Course Enrollment System.

2

Enter and store Student Details such as Student ID, Name, DOB, Gender, Email, Mobile and Address.

3

Validate the student information.

4

Display available Course Details such as Course ID, Course Name, Fees, Level and Instructor.

5

Allow the student to select a course.

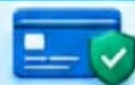

6

Check whether the entered details and selected course are valid and available.

7

If valid, process the enrollment and verify payment.

8

Generate a unique Enrollment ID and save the enrollment information.

9

Store Course Duration information including Start Date, End Date, Total Duration, Number of Classes, Class Hours and Schedule.

10

Track the student's Course Progress, Attendance, Assignments and Exam Status.

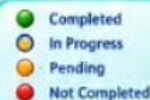

11

Check whether the student has completed the course requirements.

12

Update Completion Status as Completed, In Progress, Pending or Not Completed.

13

Update Certificate Status and Final Grade/Result.

14

Display the enrollment/completion confirmation to the student.
